Summer Leadership 2020 Guidelines:

- All CDC rules will be followed.
- Groups will be kept to under 10 per meeting room.
- Meals will be kept under capacity for the room size and appropriate separation.
- Groups will work outdoors when possible.
- Rooming will not be mixed between schools but students would room with another student from their district or in a single hotel room.

Guidelines from Event Venue (The Villa Roma Resort)

- The resort will adhere to social distancing in lobby, dining, activity and nightclub areas by establishing new setup arrangements and times.
- Check-in procedures will be monitored for crowd control by instituting additional check-in locations, one -person party check-ins, individual staff assisted check-ins, and express check-outs only.
- Signage posted throughout the resort reminding guests of safe practices, and of course, additional staff presence to answer any questions our guests may have.
- Check-in times will be strictly enforced to ensure proper sanitizing prior to the next guests' arrival. Guest Rooms and Timeshare Units will not be released for occupancy, under any circumstances, until all proper disinfectant procedures have been completed.
- The use of EPA approved cleaning and disinfectant products throughout the resort, with special emphasis on high touch-point locations.
- The use of disinfectant sprayers in large public and activity areas such as the Outdoor Pool, Bumper Boats, Bounce Houses, Soft Play areas, Shuttle Buses, etc.
- Abundant hand sanitizer stations in all Dining and Public areas
- Increased Public Area Staffing
- There will be no buffets in any Villa Roma Dining Outlet.
- Table spacing in all outlets will abide by the 6 feet apart rule, and seating at tables will be limited.
- Seating times will be extended, or possibly 2 dinner seating choices

- Tables & Chairs will be sanitized between each meal.
- We will establish an aggressive “To-Go” program, to bring meals back to your room or unit.
- There will be heightened hygiene, sanitizing & safety training of all Food & Beverage Staff, by Serve Safe Certified managers.
- Grab & Go meals will be available in outlets such as the Pool Grill, Eleanor’s Pizzeria & Deli, and the Garden Café.
- More activities will be held outdoors in additional outdoor spaces spread throughout our 400-acre property. Hand sanitizing stations will be provided at all activities. Activities may stress family vs family competitions, where families are kept separated during the games.
- Indoor activities, including nightclub shows, will be held where seating and tables are separated to meet social distancing guidelines.
- All activity equipment will be sanitized between uses.
- The Outdoor Pool area may be the most challenging venue under the new normal. It’s the area where we will need the most guest cooperation to maintain a safe environment. Lounges, Chairs & Tables will need to be spaced further apart. Once set, they cannot be moved. More lounges will need to be placed outside the pool gates in order to make up for the social distancing placements inside the gates. Pool Towels will be provided inside guest rooms and units to be replaced daily on a one for one basis. Please understand that these measures are being instituted for the health and safety of you, your family and all our other guests. It may not be what you are accustomed to, but a small sacrifice for one year will go a long way in stopping the spread and saving lives.
- Guests are required to wear masks whenever possible when in the public areas of the resort.
- To minimize the risk of touch-point transmission, only room charges will be accepted at all Villa Roma outlets. Therefore, all guests and timeshare owners will be required to present a credit card at check in. This will limit the interaction of guests and staff with cash and credit card transactions except at the Front Desk.
- All staff will be required to wear masks and protective gloves where appropriate. These will be provided to our staff members by the Resort.
- All staff will be monitored for virus symptoms and told to go and stay home.
- Daily cleaning, sanitation and hygienic instruction will be provided to all team members.
